## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on 10/6/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of patents 6,231,536, and 6,620,382 and patent application 09/699003 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Status of Rejections***

The objections to the specification have been overcome by amendment.

All double patenting rejections are withdrawn in view of the terminal disclaimer.

The rejection of claims 17-21 under 35 U.S.C. §112, first paragraph is withdrawn in view of applicants amendment.

All prior art rejections have been overcome by applicants amendments.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3, 5, and 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the preamble of the claim requires reduction of transformed, infected or diseased tissue *in a patient*, however none of the recited steps occur *in vivo*. Amendment of the claim to indicate that the blood, plasma, or one or more components thereof are returned to the patient (prior to the phrase 'until the transformed, infected, or diseased tissue is reduced') would be remedial.

The remaining claims are rejected for depending from an indefinite claim.

### ***Conclusion***

Claims 17-22 are allowable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
